RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 44 pages. Original publisher: Washington, D. C. : U. S. Dept. of Agriculture, Economic Research Service, 1999. OCLC Number: (OCoLC)42034088 Subject: Broilers (Chickens) -- Economic aspects -- United States. Excerpt: . . . Figure 4 grated. Breeding, feeding, hatching, and processing are Share of hogs delivered for processing via vertically integrated functions, while production con-long-term contracts and vertical integration tracts are used to coordinate production with process-Substantial increases in marketing contracts have ing ( fig. 6 ). Marketing contracts are relatively unim-occurred in the 1990 s portant for the broiler industry. On the other hand, marketing contracts between the hog producer-integra-1970 tors and packers ( processors ) are becoming increas-ingly important. Marketing contracts give the packer 1980 less control over production than do the production contracts used by the broiler processor-integrators. 1993 Production contracts between large hog producer-inte-grators and growers also are becoming more impor-1999 tant. These contracts are similar to those between broiler growers and processors. Distinguishing 0 20 40 60 80 100 between production and marketing contracts in the Percent pork industry is especially important because they serve different functions. Contract Vertical integration Open market The...
