Reviews

Most of these ebook is the perfect publication offered. Sure, it really is play, still an interesting and amazing literature. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).

O'Reilly Media. Paperback. Book Condition: New. Paperback. 216 pages. Okay, all you VB6 developers--times up. As of March 2005, Microsoft no longer supports this version of Visual Basic. And you can't blame them. Three years ago, they introduced the .NET Framework--an elegant, powerful platform--along with the new component-based VB.NET language. But roughly five million of you decided to stick with VB6, mostly to maintain legacy Windows and COM projects. Now, with the upcoming release of VB 2005, Microsoft has several attractive reasons to upgrade that you'll find hard to resist, including the return of some VB6 features. And we have the perfect book to help you make the conversion: Visual Basic 2005 Jumpstart. Now, you can test-drive the beta version of VB 2005 with three hands-on projects that enable you to learn the syntax of this new language quickly. VB 2005 not only lets you convert the bulk of your existing VB6 code, but offers several familiar features, such as compile-and-run debugging, new MyClasses that simplify use of .NET libraries and frameworks, lots of IDE support for Windows, web and mobile GUI development, and data access controls that closely resemble what you use now. The real plus is that you'll be using these features with the .NET platform, which is more secure, less complex than COM, and offers OneClick deployment. Visual Basic 2005 Jumpstart lets you get the feel of this platform for building smart-rich Windows Forms clients, ASP.NET web applications, and web services. Author Wei-Meng Lee, a Microsoft .NET MVP, veteran O'Reilly author and frequent contributor to the O'Reilly Network, has put together three useful test-drive projects, complete with code samples, that let you develop: A personal library Windows application A Web-based shopping cart application A stock enquiry Web Service Our jumpstart guide...
